Edo State.

## LETTER OF RECOMMENDATION

We started the use of Fuel Magic in Bishop Kelly Pastoral Centre since June 2008 Our Perkins Generating set of 250KVA, which consumed Diesel of 800litres in 32 hours. Upon application of 60ml of fuel magic, the generator now run for 44 hours saving the organization extra 12 hours.

Consequently the organization vehicles consumed 43litres of Fuel per 7days now run for 11days saving extra 4days of usage.

We therefore recommend the use of Fuel Magic to reduce cost and having long lasting engines of Generators/Cars.

It is a wonderful experience and we hope the standard will be maintained.

REV. FR. JONAS NWAIWU  
DIRECTOR
