## LETTER OF RECOMMENDATION

We the management of the above named company have used and continued using the product – FUEL MAGIC- for our generating plant and motor vehicle. The product has helped us to save the quantity of fuel consumed. We noticed its efficiency in an immediate calmness of generator upon application, thereafter a reduction in exhaust emission.

We therefore recommend the product to any individual or organization for their use.

Thanks

Yours faithfully

Alh. Zackary Abdullahie  
Managing Director/CEO
