## RECOMMENDATION LETTER

We started using your product (fuel magic) in the Board since November, 2008. Upon our use of this product, our CAT Generator which consumes 280 litres in 9 hours now consumes 224 litres saving cost for the Board.

Consequently, the Board's vehicles which usually consume 40 litres of fuel per 7 days for local run now runs for 12 days saving extra five days usage.

We therefore recommend the use of fuel magic to any organization or individual willing to save maintenance cost, save fuel and reduce pollution.
